

## **CONFLICT MINERALS GLOBAL POLICY**

### **EFFECTIVE DATE:**

03/05/14

### **BACKGROUND**

In 2010, Congress passed the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank”) requiring the Securities and Exchange Commission (“SEC”) to issue rules specifically related to disclosures regarding the use of “Conflict Minerals” within manufactured products. Conflict Minerals are defined as columbite-tantalite (also known as coltan), cassiterite, wolframite, and their respective derivatives (tantalum, tin, and tungsten) and gold originating from the Democratic Republic of the Congo (“DRC”) and its adjoining countries (collectively, the “DRC Region”). The SEC rules require all SEC registrants whose commercial products contain Conflict Minerals to determine whether the minerals originated from the DRC Region, and, if so, whether they are conflict free (e.g., not used to support nongovernmental armed groups).

### **COMMITMENT**

Light & Wonder, Inc. and all of its subsidiaries (“Light & Wonder”) are committed to complying with Dodd-Frank’s disclosure requirements related to conflict minerals, and it expects its suppliers to support Light & Wonder’s efforts to comply with these disclosure requirements.

### **EXPECTATIONS OF SUPPLIERS**

Light & Wonder expects its suppliers to support the company’s efforts to comply with Dodd-Frank’s conflict minerals reporting rules. In particular, Light & Wonder expects its suppliers to:

- (i) complete Light & Wonder’s Conflict Minerals survey, identifying products they sell to Light & Wonder or its subsidiaries that contain Conflict Minerals;
- (ii) cooperate with any Light & Wonder’s country of origin due diligence; and
- (iii) when Light & Wonder deems it necessary, provide all information reasonably available to the supplier that is necessary to complete the country of origin diligence certification required by Light & Wonder.

This policy applies to all products manufactured and contracted to be manufactured by, or on behalf of, Light & Wonder and its subsidiaries anywhere in the world.
